

# LIFE / FIT FOR REACH

## Next steps

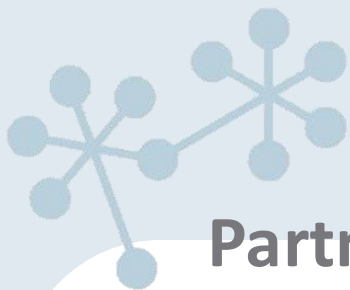

The project "Chemicals Risk Management and Assessment of Alternatives: Tools and best practices to support circularity, create more sustainable products and avoid regrettable substitution" (LIFE FitForREACH2, No. 101113947 — LIFE22-ENV-EE-LIFE FitforREACH-2) is co-financed with the contribution of the LIFE Programme of the European Union.

# Next activities

- **Continue estimation of the stat-of-the art** – on how hazardous substances are addressed and what are the challenges in the post-consumer waste streams in the BS and PL
- **Finish mapping of companies** in the waste treatment sectors in countries
- **Prepare info-package for companies** to introduce the project activities and address companies for practical implementation
- **Start preparing the guiding material** on chemicals in waste streams
- **Approach interested companies** for practical cases
- **Activate the networking** of involved “players”

The project “Chemicals Risk Management and Assessment of Alternatives: Tools and best practices to support circularity, create more sustainable products and avoid regrettable substitution” (LIFE FitForREACH2, No. 101113947 — LIFE22-ENV-EE-LIFE FitforREACH-2) is co-financed with the contribution of the LIFE Programme of the European Union.
